Представляем нашу территорию в Ботсване, находящуюся на границе с ЮАР, проходящей по реке Лимпопо. Это более 75 км в длину, дикой территории вдоль реки.

В 2010 году мы будем проводить охоты на буйвола и охоту на всех антилоп из списка в данной программе кроме роана и сейбла, которые равно как и леопард будут доступны на 2011.

Охотничий лагерь разбит в удобном месте и имеет всё необходимое для комфортного размещения охотников и их отдыха. Пять люксовых тентов на бетонном основании сделаны в традиционном для охотничьих лагерей стиле. В каждом тенте есть две кровати и необходимая мебель, а также отдельный туалет и душ. Охота проходит с использованием специально оборудованных джипов 4x4 в основном с подхода, троплением по следу или из засидки.
