

# **BURKINA FASO**

January – June

**The hunting area** is the Nazinga in Burkina Faso (ex Alto Volta) of 200.000 ha. In the middle of it there is a structure consisting of 7 modest bungalows with hygienic services and a fan, with restaurant in the centre featuring an excellent French cuisine. The hunt is conducted on foot tracking animals which are first located from the car early in the morning or in the evening. The area is populated by typical East African game animals, from buffalo to duiker. We offer you programs of 6, 9 or 14 hunting days with various animals included in the license.
