

The Great Lion Hunt

The plan of hunt:

We are meeting the client from the airport Tambo (Johannesburg) and bring him to an amazing, comfortable lodge, which is situated in north-west province of South-Africa, from few kilometres of Botswana's side, not too far from the airdrome, till which it is possible to take a charter airplane. This place is situated, seven hours car-drive away from an international airport Tambo (Johannesburg).

The following, will be waiting for you once you reach the comfortable lodge: the pool, bar, national food (with three-times-a-day meal), everyday washing and cleanup, the cool drinks and light alcohol – all included in the hunting price.

In the hunting area, almost everywhere, there is good connection of local mobile provider.

In the lodge the hunter is relaxing himself after the long flight, checks the preparedness of the gun, and if necessary the hunter targets or rents a gun of a specific calibre from our company. 375 H&H is minimum needed for the lion hunt.

Normally, we go out to hunt in the second half of the day after the flight, enjoying an enthralling hunt of tracking. We check up water points in the beginning to locate fresh track of the lion and begin to chase him by foot.

Every hunt is pre-organized, and we know for sure, in which area are the lions with certain mane characteristics, are set. The lions are territorial animals and rarely tress-passing their land, that's why we are sure, that we'll bring the client to the right lion, booked by him, according to the photos of that lion, received by the trail-cameras, set on the water and baits. During the lion tracking, the hunter will have an opportunity to see diverse animals: zebra, eland, kudu, waterbuck, orix/gemsbok, impala, giraffe that will be around.

Prices for hunting from \$18.000 to \$50.000 that depend on the sizes of the lions.

Prices on the lions include, trophy of the lion, accommodation in the lodge (all include), with three-times-a-day meal, organization of the hunt per client – 2 PH (professional hunters), trackers, skinners, transfers on the transport from/to airport and during the hunt.
